WEST DISTRICT POSITION ON COVID-19

In light of the recent UK Government recommendations, SASA West District Executive have taken the decision to put in place a ban on ALL COMPETITIVE EVENTS IN ALL DISCIPLINES under our licencing criteria until further notice. This also takes into account District Delegates Meetings. We will review our June AGM position in due course.

We will continue to monitor the ever-changing situation and we will make appropriate decisions as necessary to maximise the Health and Wellbeing of all of our members.

We will also continue to follow the guidance of Scottish Swimming and our associate Local Authorities on their current position regarding the use of facilities for training purposes and advise all of our member clubs to be in close communication with their partners to minimise disruption where possible during this time.

I thank all of our clubs and volunteers in advance for their patience and resilience and wish everyone well at this stage and look forward to the return of all of our competitive events at the earliest opportunity in the future.

Please follow the advice of key health professionals and stay safe where possible.

If you have any questions, please direct all of these to me at president@scotswimwest.co.uk.

Derek McGown
West District President
